

MECCA, CONSTANTINOPLE, CAIRO; STRATEGIC MOSLEM CENTERS

Three Cities Voice Appeal of Three Continents—How Mr. Yun, Eminent Korean Churchman, Began His Great Work—Minor Note Sounded From the Heart of the Congo—The Real Issue in Japan—Educated Classes Have Broken With Shintoism and Buddhism and Are Looking For Better Basis For Their Ethics and Faith—Jamaican Converts in Cuba.

BY SOUTHERN MISSIONARY NEWS BUREAU.
Ida Clyde Clark, Editor.

The three strategic centers of the Moslem world are Mecca, Constantinople, and Cairo. A well-known missionary statesman says: "Mecca is not only the religious capital of the cradle of the Moslem faith and the birthplace of their prophet, but it is the central shrine of Islam, toward which for centuries, prayer and pilgrimages have gravitated. The whole New Testament narrative, as it is given in distorted form both in the Korean and in tradition, finds in Mecca its real environment. Adam and Eve met each other at Mt. Ararat. Eve lies buried at Jiddah. God himself appointed the place for Kaaba, and the stone is still sacred on which Abraham stood when he erected the building."

The stationary population of Mecca is only 60,000, but its importance lies more in the number of pilgrims that visit it each year.

"Mecca is a challenge to faith and to Christian heroism," says Dr. Zwemer. "Mecca is the sinkhole of Islam. All witnesses agree on the flagrant immorality which prevades the streets and even the mosque of the sacred city. Mecca is the microcosm of Islam in its religious life and aspirations."

Constantinople faces two continents and two civilizations. It was founded by Constantine and beautified by Justinian, and the old city represented visibly the overthrow of paganism and the triumph of Christianity.

"As a base of missionary operations, not only upon Turkey, but upon adjacent countries as well," says Dr. Barton. "It is unexcelled. As a strategic center for Christian work, calculated directly and indirectly to reach the 200,000,000 who bear the name of the prophet of Arabia, there is no place that can compare with Constantinople," resting as it does on two continents and swaying the most mighty re-

ligious empire on earth. The population is given as 1,100,000 but of these scarcely one half are Moslems. Here the forces of Christianity and Islam are so nearly balanced that the impact of a Christianity once more dominant in the oriental churches would count as nowhere else.

Cairo is at once the capital of Egypt, the metropolis of all Africa, and the brain center of the Moslem world. The total population is 700,000, of which probably ninety per cent. is Mohammedan. Cairo has 206 mosques, not counting the smaller ones.

If Mecca is the religious center and Constantinople the political center of the Moslem world, Cairo above all things is the literary center.

"These three cities voice the appeal of three continents," says Dr. Zwemer. "Asia, Europe and Africa, to be freed from the thralldom of Mohammed and welcomed into the glorious liberty of the children of God."

FOOTBALL IN BRAZIL

A recent message from Calaguaz Brazil, where Union college is located, says:

"We have matriculated seventy-eight students this year. One young man has been converted and joined our church. At mid-day we have our worship, and at this hour I have an opportunity to speak to the whole school on matters of interest and importance to young people. Then on Saturdays I have a meeting with the boarders, who are all boys, in which I can school them in plainer language. On Sunday morning at 8 o'clock we have Sunday School with the boarders. The boys like our hymns, and have learned to sing a lot of them with good effect.

"A neighbor school invited our football team to play them on Sept. 7th, which was Sunday. I couldn't go with the boys so put every fellow on his honor and

sent them alone.

"The paper of the town to which they went spoke in the highest terms and the many conduct. I tell them the football or basketball field is a mighty good place to prove the practical value of the Master's words. 'Do unto others as you would have others do unto you;' and that religion is worth nothing if it can't get outside the doors of the church into every battlefield through which we have to pass."

A BIG SALE OF COAL RIGHTS

Several Thousand Acres in Webster and Hopkins Sold to Pittsburg Men.

Several thousand acres of coal privileges in the Luman, Garth and Nebo sections, have been sold to Pittsburg capitalists.

The deal was consummated through the real estate firm of J. T. Edwards & Co., of this city. E. W. L. Baker, of the Corbin county, secured options on the property some time ago and placed them in the hands of the real estate firm, who closed up a contract with the Pittsburg people a few days ago to take all the holdings.

The price paid per acre is not given out, but a large sum of money will be paid out to the farmers of Webster and Hopkins counties.

Abstractors will start at once to proving up titles and as rapidly as this is done the farmers will be paid for their coal rights.

It is understood that the Pittsburg syndicate will open mines as soon as all the details have been carried out, but it is not known where they will establish a base of operations.—Providence Enterprise.

Towel Shower

Another of the series of shows, was a towel shower given by Mrs. Henry Rogers, at her home Friday afternoon. Regardless of the inclining of the weather, about forty ladies were present, each bringing a nice towel, making a pretty display.

After a most pleasant social hour, delightful refreshments were served.

Electric Signals For L. & N.

A new electric block signal system designed to improve the safety of railroad travel will be installed by the Louisville & Nashville Railroad Company.

Early in the new year work will be commenced on equipping a major portion of the Kentucky division with the electric blocks. It will require from six to twelve months to complete the work, which will cost the company nearly half a million dollars. Eventually the entire L. & N. system including 4,919 miles of railroad, extending into thirteen states will be equipped with electric block signals.—Pendletonian.

NOT MERCHANTS IN GOOD FAITH

Judge R. B. Bradley Decided
Against Issuance of
Saloon License.

TO NORTONVILLE MEN.

Deciding in very short time that Messrs. Harrelson & Henderson were not "merchants in good faith," County Judge Bradley last Saturday refused to grant a license to these men to open a "quart" house a short distance from Nortonville.

The case was called at ten o'clock, and the courtroom was crowded by many interested in the outcome. Attorneys for the whiskey side explained the business of the men seeking the license, and as their stock of "goods" was not worth as much as \$75, the judge decided that they were not in good faith and the petition dismissed.

It seems that Messrs. Harrelson & Henderson only recently purchased this stand, and the stock was made up mostly of fixtures.

Petitions were freely circulated in the district by both sides, the one by the "drys," it being claimed, having the largest number of signatures.

The Mannington applicant has failed to show up, and it is thought this question has been settled for all times.

MOTHER! THE CHILD IS COSTIVE, BILIOUS

Don't Hesitate! A Laxative is Necessary if Tongue is Coated, Breath Bad or Stomach Sour

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad, or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs" and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company." Don't be fooled.

NINE KILLED IN BLIZZARD.

Hundreds of Thousands of Dollars Damage, And Much Suffering—The Snow Five Feet Deep.

Chicago, Nov. 10.—At least nine killed, hundreds of thousands of dollars damages, and extensive suffering, is the result of the blizzard today which swept the middle West.

Nine ships were ashore in the lake region, and three persons are missing.

Snow fell to the depth of five feet in some portions of the Central West.

Wire communication is crippled, and Senator Cummins and three hundred passengers are on a snow bound train at Washington, Pennsylvania.

A relief train has been sent to their rescue, and they may be rescued within the next twenty-four hours.

Smith-Littlepage.

Mr. J. W. Smith and Miss Dossie Littlepage, two popular people of the Grapevine neighborhood, drove over to Earlinton Sunday afternoon and were married by Howard J. Brazzelton, at the parsonage.

Mrs. Henry W. Rogers and Miss Minnie Goodell Entertain With Towel Shower

A very pleasant social event of last week was the "towel shower" given by Mrs. Henry W. Rogers and Miss Minnie Goodell at the home of the former on Farren Avenue, last Friday afternoon from two to five. About forty-five guests enjoyed the hospitality of these charming hostesses. They brought with them towels of every description to the number of sixty-seven. Little towels, big towels bath towels, face towels, dish towels and wash rags; all of them displaying the beautiful handiwork of the givers. These will be a part of the Bazaar given by the Ladies Aid Society of the Christian Church on the 9th of December.

The inclemency of the weather on the outside was no indication of gloom within, for from the time of the arrival of the first guests until the departure of the last, there was not a dull moment; the games, contests, and conversation furnished pleasure for all. In addition to these, Mrs. Covand, Mrs. Featherston, Mrs. John L. Long and Miss Sarah Clutchfield delighted all with musical numbers. The hostesses served palatable and dainty refreshments. The showers are becoming a popular feature of social life of the community, and are looked forward to with a great deal of pleasure. This one did not lose any of the flavor of the former ones, and only whetted the appetite for more.

All Trains Delayed.

New York, November 10.—Trains from the West were from one to seven hours late in reaching New York to-day, on account of storms. The Twentieth Century Limited, due at 9:40 a. m. was posted to arrive at between 3:40 and 4:40 p. m. Other New York Central trains were not as seriously delayed.

Telegraph and telephone companies reported that the center of wire demoralization was in and about Cleveland.

Snow And Sleet.

Pittsburg, Pa., Nov. 10.—A snow sleet and windstorm swept West Virginia, a large portion of Ohio and Western and North-western Pennsylvania yesterday, crippling all means of transportation and seriously retarding wire communication.

How to Detect the Alum Baking Powder

"Which are the alum baking powders; how can I avoid them unless they are named?" asks a housekeeper.

Here is one way: take the can of a low-priced powder in your hand and read the ingredient clause upon the back label. The law requires that if the powder contains alum that fact must be there stated. If you find one of the ingredients named alum, or sulphate of aluminum, you have found an alum baking powder.

There is another and a better way. You don't have to know the names of the alum powders. Use Royal Baking Powder only; that assures you a cream of tartar powder, and the purest and most healthful baking powder beyond question.

Until the Plumber Arrives.

While waiting for the arrival of a
plumber, when the water pipes have
sprung a leak, the housewife may do
a little repairing herself. The water
should be turned off and a solder made
by mixing some whiting with common
yellow soap and just enough water to
form a thick paste. Apply this mix-
ture to the leak and in a little while
the water may be turned on very slow-
ly. This spider may last a day or
longer.

More Caution Needed.

An exchange tells the story of a lit-
tle boy whose mother decided that he
was old enough to do without her
sitting by him when he was put to
bed until he fell asleep. So when one
night she kissed the five-year-old and
told him he was a big boy and brave
enough to go to sleep without his
mamma and in the dark, too, he pon-
dered the situation a moment and then
said: "Well, wait a minute. I've got
to say my prayers again carefuler."

EAT CABBAGE, FISH SAUSAGE, NEW BREAD

No Indigestion, Gas, Sourness of Upset
Stomach if you'll take "Pape's
Diapepsin"—Try This!

Do some foods you eat hit back
—taste good, but work badly;
ferment into stubborn lumps and
cause a sick, sour, gassy stom-
ach? Now, Mr. and Mrs. Dy-
speptic, jot this down: Pape's
Diapepsin digests everything,
leaving nothing to sour and up-
set you. There never was any-
thing so safely quick, so certain-
ly effective. No difference how
badly your stomach is disordered
you will get happy relief in five
minutes, but what pleases you
most is that it strengthens and
regulates your stomach so you
can eat your favorite foods with-
out fear.

Most remedies give you relief
sometimes—they are slow, but
not sure. "Pape's Diapepsin"
is quick, positive and puts your
stomach in a healthy condition
so the misery won't come back.

You feel different as soon as
"Pape's Diapepsin" comes in
contact with the stomach—dis-
tress just vanishes—your stom-
ach gets sweet, no gases, no bel-
ching, no eructations of undiges-
ted food, your head clears and
you feel fine.

Go now, make the best invest-
ment you ever made, by getting
a large 50c case of Pape's Dia-
pepsin from any drug store. You
realize in five minutes how need-
less it is to suffer from indiges-
tion, dyspepsia or any stomach
disorder.

Practical Ventilating Hint.

The house should be ventilated in
winter as well as in summer if the
family is to be kept in good health.
Bedrooms, especially, should be pro-
vided with a free circulation of fresh
air. One way to get fresh air in a
bedroom without having a draft is to
tack strips of cheesecloth across the
top and the bottom of the window so
that when it is opened in both places
the fresh air will enter the room and
yet, should there be a strong wind,
its force will be broken by the cloth.

Must Be Persistent.

The art of convincing is never given
to the man who is unwilling to persist
in an effort to convince.
